3 September 2020

Dear Parents/Guardians

At St Dallan's we are constantly looking for ways to share our learning. As you know online communication and e-learning is already, and will continue to be an extremely important part of our future due to COVID-19.

We will be using this platform to inform our planning not only as part of your child's homework but also to help in the event that your child has to engage in home learning due to self-isolation.

With this in mind we are using two forms of e-learning at home. Primary 4 to Primary 7 will be using Google Classroom and each child will need to know their log in details. We are in the process of providing the children with these and there is a help sheet provided in the Newsfeed below.

We will also be using the Seesaw app within the P1, P2 and P3 classrooms to create a snap-shot of the children's learning and also hope it will help us work together to provide the children with meaningful learning experiences at home.

Your child's teacher will use Seesaw to share learning activities and resources, capture your child's learning and communicate about progress and needs. We will periodically send home photographs of activities/work being completed in class and initially we will also set one homework task each week which must be completed and returned through the Seesaw app.

## Help your child log into the Seesaw **CLASS** app at home:

For tablets or phones, download the **Seesaw Class App**

For laptop or desktop computers, **go to [app.seesaw.me](http://app.seesaw.me)**

Your child logs in by clicking **I'm a Student**

We will provide a unique Home Learning Code for your child to log in at home:

**Enter the text code or scan the QR code** (see example to the right)

**Your code will be provided to you in the near future**

This unique Home Learning Code will be used to access Seesaw. When signing in with their Home Learning Code, children can post to their journal, respond to activities, and view class announcements. Children do not see the work of any other child in the class.

Keep codes safe and never share codes on social media.

**For help getting your child logged in,** watch [this video](#) (YouTube: What is Seesaw? Introduction for Students).

Please note at this point we politely request that your first point of contact/communication with your child's teacher is via the school office.

If you are having any issues including either Google Classroom or Seesaw please contact the office and leave your details and the teacher will be in contact.

Thank you for your support and understanding.

Yours sincerely

Mrs U Farrell  
Principal
